## CONTRIBUTING THROUGH TWO PLANS CAN BENEFIT YOU!

### Now You Can Save More for Tomorrow

Did you know that you can save and invest through your 403(b) Plan and the Massachusetts Deferred Compensation SMART Plan (457 Plan) at the same time, giving yourself a powerful opportunity to double your before-tax contributions in 2012? Consider these reasons to contribute to your 457 Plan and 403(b) Plan simultaneously.

#### Greater Retirement Savings Power

- With time and the power of compounding on your side, participating in two plans can provide an incredible boost to your retirement strategy.
- In 2012, if you are under age 50 you may contribute \$17,000 to each plan, for a total of \$34,000.
- In 2012, if you are age 50 or older you may contribute \$22,500 to each plan, for a total of \$45,000.
- In 2012, if you are within three years of normal retirement age and have not contributed your maximum in previous years, you may be able to utilize Standard 457 Catch-Up, which allows you to contribute up to twice the regular dollar limit to your 457 Plan—\$34,000.<sup>1</sup>

#### Valuable 457 Plan Features

- As an employee, you can contribute to one of the most attractive savings and investment vehicles available today: the SMART Plan.
- There is no 10% early withdrawal penalty for 457 Plan money. The penalty may apply to IRAs and 401(a), 401(k) and 403(b) plans or money rolled into a 457 plan from IRAs and 401(a), 401(k) and 403(b) plans.
- You get the most generous contribution limits if you are within three years of normal retirement age and have under-contributed in prior years. The 457 Plan now allows for a flexible payout similar to your 403(b) Plan.
- You can contribute up to the maximum contribution limit to both the 457 and 403(b) Plans.

#### Increased Tax Benefits

While tax-deferred growth is important regardless of your income tax bracket, it becomes more powerful as your marginal income tax bracket increases. Maximizing your contributions to both the 457 and 403(b) Plans may double your tax benefit each year.

#### Expanded Investment Options

Having access to more investment options through both Plans allows you to stay diversified—especially during the inevitable cycles of market volatility.<sup>2</sup>

<sup>4</sup> Some exceptions may apply, but typically there is a 10% federal penalty on distributions taken prior to age 59½. Withdrawals from all plans are subject to ordinary income taxes. The 10% early withdrawal penalty does not apply to withdrawals of 457 plan money.
