A Handy Guide

Prepared for

WORCESTER STATE COLLEGE

The Toshiba eStudio 352 & eStudio 452, eStudio 353 - multifunctional devices are designed to serve Worcester State College(WSC) in many ways. The information contained in this guide provides some simple instructions to perform a few of the powerful functions that the Toshiba multifunctional provides. The guide was formulated with direction from WSC for your convenience.

The Toshiba Solution....

The Toshiba eStudio 352/452/353 multifunctional device provides a solution to handle your busy WSC office needs.

This booklet was designed to highlight specific features of the new Toshiba eStudio 352/452/353 available to WSC from the desktop, and at the device:

- Walk up Copying
- Printing
- Scanning
- Scan to Email
- Scan to File
- View your Toshiba device through the “Top Access Utility” to know what is happening with your Toshiba eStudio.

You may also find interactive training on the web- available 24/7 to see the additional power of Toshiba’s eStudio technology at

<http://copiers.toshiba.com/usa/support/training/index.html> .

We hope you enjoy your new Toshiba eStudio experience.

WSC

Scanning.....

Just place your originals in the automatic feed or on the glass.

- Select “Scan”....Now you have a choice, **Scan to E-Mail, Scan to File, or Scan to E-filing.**

Scan to E-Mail is the most common form of scanning which cuts down on expensive faxing.

Scanning to E-Mail....

- Select Scan to E-Mail

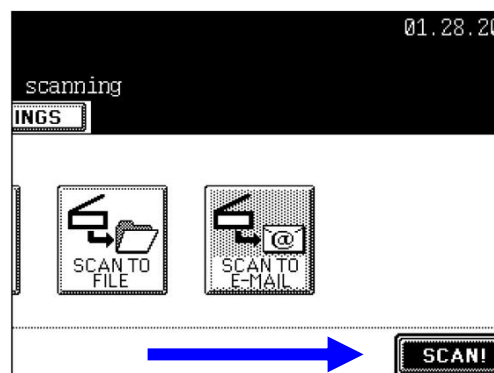

- Press the E-MAIL TO button and select the address.
- In the address book, select the address you want to send to.

- Press the Subject, Body, and/or File name buttons and enter the information about the E-mail if you desire otherwise the Toshiba will supply a naming convention.

SCAN	SETTINGS
SCAN TO E-MAIL	
E-MAIL TO	aaa@bbb.ccc
SUBJECT	Scanned from MFP-00C91875
BODY	xyz
FILE NAME	
EDIT	

- Press the Scan button

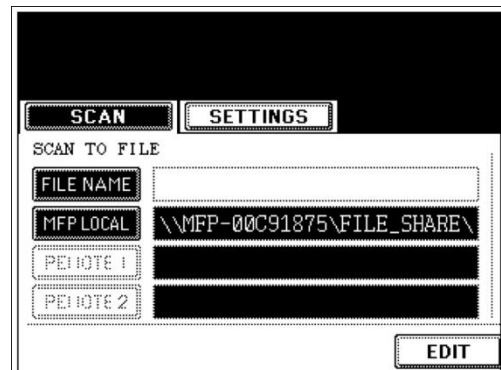

Scan to File...

In this SCAN TO FILE function, the scanned original data can be sent and stored to the Share folder of the hard disk in the equipment or to a Share folder on your network. It is recommended that the network administrator set up the shared folder for storing the original data.

- Select Scan to File

- Press the **FILE NAME** button to enter the file name of the scanned data. The letter entry menu is displayed. A file name can contain up to 45 letters. After entering the letters, be sure to press the **ENTER** button.

- Press **SCAN!**

- If scanning from the glass as opposed to through the feed. **You may continue placing documents on glass and pressing Scan!** If you want to finish scanning, press the **JOB FINISH** button.
